## PROFILE

Experienced Software Developer adept in bringing forth expertise in design, installation, testing and maintenance of software systems. Equipped with a diverse and promising skill-set. Proficient in various platforms, languages, and embedded systems. Experienced with the latest cutting edge development tools and procedures. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

My passion for scalable online applications is matched by my commitment to code quality and continuous improvement. Adept at effective client communication, I thrive in collaborative teams, prioritizing high-quality deliverables and ongoing learning.
